About Us

We have been happily married over 7 years. We first met at mutual friends' wedding and dated for 2 years. We discussed children from the beginning and raising a family has always been a dream of ours. Shortly after we were married, we started trying to have children but after 5 years of trials and treatments, we learned that we would not be able to have a child of our own. After researching our options, we felt that God was showing us the path to adoption.

Raising a child can be hard but joyous work as we have discovered during our experiences with taking care of nieces, nephews, and godchildren. Each experience whether positive or negative strengthens our resolve to be parents. We want you to know that we are prepared to give a child a life filled with love and opportunity that allows them to explore the world yet be grounded in faith, family, and the community. Our hearts are open and ready to share love and laughter with a child that will help to make our family complete.
